## **How to answer a question with a string using the scanner ...**

How to answer a question with a string using the scanner class using java? Ask Question 1. I have been trying all weekend to find a way to get my program to answer a question using a sting with a scanner class. For example I need to get my program to answer a question like. Who is on the 5 dollar bill? Input would be Lincoln and other inputs would be invalid the question will have 3 choices so ...
